Thank you to Daniel for agreeing to take over the results. We would like to thank Nigel for all his hard work with them over the years.

It was agreed to sort the results into 5-year age categories from this season and go up to 80+.

### **4. Website**

We thank Sam Weston for all his help with setting up the new website, it is much improved! Going forward, we need to find someone to take this on. Daniel has an idea that might work.....watch this space!

## 5. Fixtures

Claire Powell to apply for all ARC permits.

## 6. Risk Assessments/Medical Support

An awful lot of hard work has gone into updating and improving the risk assessments this year. Thank you to everybody involved with this.

It did come up that course leaders felt Collingwood hadn't read the risk assessments and that we might be better finding a different provider. Claire Powell to get a quote from A-Cute Medical care that she uses for BigFeat Events.

## 7. New Constitution

This will be updated soon by Claire Powell and put on the website. Very grateful for Daniel's offer to help too.

Any runners with any type of headphones or not in club kit will be DQ'd. Please dedicate a finish marshal to identify runners. They will then be removed from the results.

## **8. AOB**

FE key has been found!

Plastic Stakes are available for events, please speak to Malcolm Price or Jon Osman.

EA or not EA? Claire to find the answer for S'ton Tri.

Parking discounts for volunteers – we would love to but it's tricky to implement as there are often not enough codes issued. Encourage car sharing.

Update to be given regarding Matterley Bowl cost and the cost of River Hamble Country Park.

Kind regards

Claire Powell
